Subject Index

Hearing

Anatomy and Physiology

Average Evoked Potentials in Cats with Lesions of Auditory Pathway, Robert Goldenberg and Arthur Derbyshire, September, 420-429.
Diplacusis Associated with Bilateral High Frequency Loss, Dale O. Robinson and John H. Gaeth, March, 5-16.

Audiology

Bone Vibrator Measurements: Physical Characteristics and Behavior Thresholds, Donald D. Dirks and Candace Kamm, June, 242-260.
Brain Stem Auditory Evoked Responses in Premature Infants, Robert Galambos and Carol Schulman-Galambos, September, 456-465.
Comment on "Five Years of Experience with Electric Response Audiometry" (Letter to the Editor), Maurice Mendel and Lee Harker, March, 221.
A Comparison of Pure-Tone Thresholds as Measured by Delayed Feedback Audiometry, Electrodermal Response Audiometry, and Voluntary Response Audiometry, Bradley L. Billings and Thomas E. Stokinger, December, 754-764.
Cost-Benefit Analysis of Two Decision Criteria for Spondee Threshold Measurements, Michael R. Chial, William G. Beck, and Glen Vanlandingham, March, 105-114.
Dimensions of Consonant Perception in Normal and Hearing-Impaired Listeners, Brian E. Walden and Allen A. Montgomery, September, 444-455.
The Effect of Combining Low- and High-Frequency Passbands on Consonant Recognition in the Hearing Impaired, Barbara Franklin, December, 719-727.
Identification and Discrimination of Vowel-Consonant Syllables in Listeners with Sensorineural Hearing Loss, Charlotte Reed, December, 773-794.
Infant Sucking Response Patterns as a Conjugate Function of Changes in the Sound Pressure Level of Auditory Stimuli, W. Alan Eisele, Richard C. Berry, and Thomas H. Shriner, June, 296-307.
Reply to Mendel's and Harker's comments on "Five Years of Experience with Electric Response Audiometry" (Letter to the Editor), Frederica M. Russ and F. Blair Simmons, March, 222.
Static and Dynamic Acoustic Impedance Measurements in Infant Ears, Robert H. Margolis and Gerald R. Popelka, September, 435-443.
Tympanometric Curves and Otosclerosis, Robert G. Ivey, September, 554-558.

DEAFNESS

Auditory and Audiovisual Feature Transmission in Hearing-Impaired Adults, Brian E. Walden, Robert A. Prosek, and Don W. Worthington, June, 272-280.
Comments on "Linguistic Performance of Hard-of-Hearing and Normal-Hearing Children" (Letter to the Editor), M. Irene Stephens, December, 820-821.
Conjoined Structures in the Language of Deaf Students, R. B. Wilbur, S. P. Quigley, and D. S. Montanelli, June, 319-335.
Diplacusis Associated with Bilateral High Frequency Loss, Dale O. Robinson and John H. Gaeth, March, 5-16.
Neuropsychologic Function of Children with Severe Hearing Impairment, James J. Wilson, Isabelle Rapin, Barbara C. Wilson, and Frances Victor Van Denburg, December, 634-652.
Perceptual Strategies Employed by Normal-Hearing and Hearing-Impaired Children in the Comprehension of Sentences Containing Relative Clauses, Julia Davis and Richard Blasdell, June, 281-295.
Residual Hearing and Speech Production in Deaf Children, Clarissa R. Smith, December, 795-811.
Some Masking Effects Produced by Low-Frequency Vowel Formants in Persons with Sensorineural Hearing Loss, Ellen M. Danaher and J. M. Pickett, June, 261-271.
Verbal Coding Strategies Used by Hearing-Impaired Individuals, Robert D. Moulton and Daniel S. Beasley, September, 559-570.

PSYCHOACOUSTICS

Acoustic-Reflex Response to Sustained Signals, Terry Wiley and Raymond Karlovich, March, 148-157.
Bone Vibrator Measurements: Physical Characteristics and Behavior Thresholds, Donald D. Dirks and Candace Kamm, June, 242-260.
Cost-Benefit Analysis of Two Decision Criteria for Spondee Threshold Measurements, Michael R. Chial, William G. Beck, and Glen Vanlandingham, March, 105-114.
Dimensions of Consonant Perception in Normal and Hearing-Impaired Listeners, Brian E. Walden and Allen A. Montgomery, September, 444-455.
The Effect of Combining Low- and High-Frequency Passbands on Consonant Recognition in the Hearing Impaired, Barbara Franklin, December, 719-727.
Infant Sucking Response Patterns as a Conjugate Function of Changes in the Sound Pressure Level of Auditory Stimuli, W. Alan Eisele, Richard C. Berry, and Thomas H. Shriner, June, 296-307.
Intelligibility Characteristics of Superior Esophageal Speech Presented under Various Levels of Masking Noise, Yoshiyuki Horii and Bernd Weinberg, September, 413-419.
Localization of Two Noise Sources Overlapping in Time, Willard R. Thurlow and Judith C. Jacques, December, 663-671.
The Measurement of Critical Masking Bands, Robert H. Margolis and Arnold M. Small, September, 571-587.
Most Comfortable Loudness for Pure Tones and Speech in the Presence of Masking Noise, Alan M. Richards, September, 498-505.
Pursuit Auditory Tracking of Dichotically Presented Tonal Amplitudes, Harvey M. Sussman, Peter F. MacNeilage, and Jack L. Lumbley, March, 74-81.
Some Masking Effects Produced by Low-Frequency Vowel Formants in Persons with Sensorineural Hearing Loss, Ellen M. Danaher and J. M. Pickett, June, 261-271.
Static and Dynamic Acoustic Impedance Measurements in Infant Ears, Robert H. Margolis and Gerald R. Popelka, September, 435-443.

Language

APHASIA

Pantomime Recognition in Aphasics, Robert J. Duffy, Joseph R. Duffy, and Karen Leiter Pearson, March, 115-132.

Practicality of Shortening the Porch Index of Communicative Ability, Frank G. DiSimoni, Robert L. Keith, Dennis L. Holt, and Frederic L. Darley, September, 491-497.

LANGUAGE DEVELOPMENT

Children's Acquisition of Idioms in the English Language, Donna Nemeth Lodge and Edwin A. Leach, September, 521-529.
A Comparative Computer Content Analysis of the Verbal Behavior of Institutionalized and Noninstitutionalized Retarded Children, J. C. Montague, E. C. Hutchinson, and E. Matson, March, 43-57.
Conjoined Structures in the Language of Deaf Students, R. B. Wilbur, S. P. Quigley, and D. S. Montanelli, June, 319-335.
Deaf and Hearing Children's Use of Language Describing Temporal Order among Events, Robert J. Jarvella and Jay Lubinsky, March, 58-73.
Fricative Discrimination in Early Infancy, Rebecca Eilers and Fred Minifie, March, 158-167.
Language Performance of Educable Mentally Retarded and Normal Children at Five Age Levels, Rita C. Naremore and Richard B. Dever, March, 82-95.
Occurrence of Children's Echoic Responses According to Interlocutory Question Types, Warren H. Fay, June, 336-345.
Patterns of Language Behavior in Children with Developmental Language Disorders, Dorothy M. Aram and James E. Nation, June, 229-241.
Perceptual Strategies Employed by Normal-Hearing and Hearing-Impaired Children in the Comprehension of Sentences Containing Relative Clauses, Julia Davis and Richard Blasdell, June, 281-295.
Pronoun Assessment: A Free Speech Technique, Barbara Bergmann Davis and Sue Seitz, December, 765-772.
A Reconceptualization and Revised Scoring Procedure for the ITPA Based on Multivariate Analysis of the Original Normative Data, Gary Cronkhite and Kandace Penner, September, 506-520.
The Reliability of Developmental Sentence Scoring as a Function of Sample Size, Martha R. Johnson and J. Bruce Tomblin, June, 372-380.
Word Order in Early Two and Three Word Utterances: Does Production Precede Comprehension? Robin S. Chapman and Jon F. Miller, June, 355-371.

OTHER

A Comparative Computer Content Analysis of the Verbal Behavior of Institutionalized and Noninstitutionalized Retarded Children, J. C. Montague, E. C. Hutchinson, and E. Matson, March, 43-57.
Memory for Speech and Speech for Memory, John L. Locke and Kathryn J. Kutz, March, 176-191.

Speech

ANATOMY AND PHYSIOLOGY

Ultrasonic Measurement of Lateral Pharyngeal Wall Motion at Two Levels in the Vocal Tract, James Zagzebski, June, 308-318.

ARTICULATION DISORDERS

Articulatory Inconsistencies in the Speech of Normal Children, Tanya Gallagher and Thomas Shriner, March, 168-175.
Contextual Variables Related to Inconsistent /s/ and /z/ Production in the Spontaneous Speech of Children, Tanya Gallagher and Thomas H. Shriner, December, 623-633.
The Relationship between Discrimination and Articulation Training in Children with Misarticulations, Gail C. Williams and Leija V. McReynolds, September, 401-412.

Self and Mutual Speech Comprehension by Deviant- and Normal-Speaking Children, John Panagos and Rella Ruth King, December, 653-662.
Self-Retrieval and Articulatory Retention, Harris Winitz and Betty Bellerose, September, 466-477.

SPEECH AND VOICE SCIENCE

Acoustic Redundancy and the Perception of Time-Compressed Speech, Arthur Wingfield, March, 96-104.
Auditory and Audiovisual Feature Transmission in Hearing-Impaired Adults, Brian E. Walden, Robert A. Prosek, and Don W. Worthington, June, 272-280.
Comparison of Glottal Area Changes as Measured from Ultra-High-Speed Photographs and Photoelectric Glottographs, R. Joyce Harden, December, 728-738.
Development of the Voicing Contract: Perception of Stop Consonants, Marsha A. Zlatin and Roy A. Koenigsknecht, September, 541-553.
The Distribution of Perceptual Cues in English Prevocalic Fricatives, Conrad LaRiviere, Harris Winitz, and Eve Herriman, December, 613-622.
Dynamic Palatometry (Research Note), Samuel G. Fletcher, Martin J. McCutcheon, and Matthew B. Wolf, December, 812-819.
Intraoral Air Pressure as a Feedback Cue in Consonant Production, Robert A. Prosek and Arthur S. House, March, 133-147.
Lingual-Palatal Pressure Measurement and Analysis Technique (Research Note), Herbe A. Leeper, Jr., and Franklin J. Appl, September, 588-593.
Lip and Jaw Motor Control during Speech: Responses to Resistive Loading of the Jaw, John W. Folkins and James H. Abbs, March, 207-220.
A Miniature Accelerometer for Detecting Glottal Waveforms and Nasalization (Research Note), K. N., Stevens, D. N. Kalikow, and T. R. Willemain, September, 594-599.
Pursuit Auditory Tracking of Dichotically Presented Tonal Amplitudes, Harvey M. Sussman, Peter F. MacNeilage, and Jack L. Lumbley, March, 74-81.
Rhythm and Syllable Timing in Phrase-Level Stress Patterning, John W. Folkins, Creighton J. Miller, and Fred D. Minifie, December, 739-753.
Some Statistical Characteristics of Voice Fundamental Frequency, Yoshiyuki Horii, March, 192-201.
Ultrasonic Measurement of Lateral Pharyngeal Wall Motion at Two Levels in the Vocal Tract, James Zagzebski, June, 308-318.
Vertical Laryngeal Position during Continuous and Discrete Vocal Frequency Change, Thomas Shipp, December, 707-718.
Voice Onset Time, Frication, and Aspiration in Word-Initial Consonant Clusters, Dennis H. Klatt, December, 686-706.
Vowel and Nasal Duration as Cues to Voicing in Word-Final Stop Consonants: Spectrographic and Perceptual Studies, Lawrence J. Raphael, M. F. Dorman, Charles Tobin, and Frances Freeman, September, 389-400.

STUTTERING

Comment on "Stuttering Frequency and the Onset of Phonation" (Letter to the Editor), Martin A. Young, September, 600-602.
A Comparison of Covert and Overt Assessment Procedures in Stuttering Therapy Outcome Evaluation, Roger J. Ingham, June, 346-354.
Effect of Selected Word Attributes on Preschoolers' Speech Disfluency: Initial Phoneme and Length, Ellen-Marie Silverman, September, 430-434.
Expectancy as Basically a Short-Term Process, M. E. Wingate, March, 31-42.
The Influence of Noise on Stutterers' Different Disfluency Types, Edward G. Conture and Evelyn R. Brayton, June, 381-384.
Observer Agreement for Marking Moments of Stuttering, Martin A. Young, September, 530-540.
Punishment and Negative Reinforcement of Stuttering Using Electric Shock, Richard Martin, Kenneth St. Louis, Samuel Haroldson, and Jon Hasbrouck, September, 478-490.
Reduction of Stuttering Frequency Using Analog Electromyographic Feedback, Barry Guitar, December, 672-685.

A Reply to Martin Young, (Letter to the Editor), Martin R. Adams and Ronald Reis, September, 603.
Speech Fluency Fluctuations during the Menstrual Cycle, Ellen-Marie Silverman and Catherine H. Zimmer, March, 202-206.

Voice Disorders

Intelligibility Characteristics of Superior Esophageal Speech Presented under Various Levels of Masking Noise, Yoshiyuki Horii and Bernd Weinberg, September, 413-419.

Title Index

Acoustic Redundancy and the Perception of Time-Compressed Speech, Arthur Wingfield, March, 96-104.
Acoustic-Reflex Response to Sustained Signals, Terry Wiley and Raymond Karlovich, March, 148-157.
Articulatory Inconsistencies in the Speech of Normal Children, Tanya Gallagher and Thomas Shriner, March, 168-175.
Auditory and Audiovisual Feature Transmission in Hearing-Impaired Adults, Brian E. Walden, Robert A. Prosek, and Don W. Worthington, June, 272-280.
Average Evoked Potentials in Cats with Lesions of Auditory Pathway, Robert Goldenberg and Arthur Derbyshire, September, 420-429.
Bone Vibrator Measurements: Physical Characteristics and Behavior Thresholds, Donald D. Dirks and Candace Kamm, June, 242-260.
Brain Stem Auditory Evoked Responses in Premature Infants, Robert Galambos and Carol Schulman-Galambos, September, 456-465.
Children's Acquisition of Idioms in the English Language, Donna Nemeth Lodge and Edwin A. Leach, September, 521-529.
Comment on Five Years of Experience with Electric Response Audiometry (Letter to the Editor), Maurice Mendel and Lee Harker, March, 221.
Comments on Linguistic Performance of Hard-of-Hearing and Normal-Hearing Children (Letter to the Editor), M. Irene Stephens, December, 820-821.
Comment on Stuttering Frequency and the Onset of Phonation (Letter to the Editor), Martin A. Young, September, 600-602.
A Comparative Computer Content Analysis of the Verbal Behavior of Institutionalized and Noninstitutionalized Retarded Children, J. C. Montague, E. C. Hutchinson, and E. Matson, March, 43-57.
A Comparison of Covert and Overt Assessment Procedures in Stuttering Therapy Outcome Evaluation, Roger J. Ingham, June, 346-354.
Comparison of Glottal Area Changes as Measured from Ultra-High-Speed Photographs and Photoelectric Glottographs, R. Joyce Harden, December, 728-738.
A Comparison of Pure-Tone Thresholds as Measured by Delayed Feedback Audiometry, Electrodermal Response Audiometry, and Voluntary Response Audiometry, Bradley L. Billings and Thomas E. Stokinger, December, 754-764.
Conjoined Structures in the Language of Deaf Students, R. B. Wilbur, S. P. Quigley, and D. S. Montanelli, June, 319-335.
Contextual Variables Related to Inconsistent /s/ and /z/ Production in the Spontaneous Speech of Children, Tanya Gallagher and Thomas H. Shriner, December, 623-633.
Cost-Benefit Analysis of Two Decision Criteria for Spondee Threshold Measurements, Michael R. Chial, William G. Beck, and Glen Vanlandingham, March, 105-114.
Deaf and Hearing Children's Use of Language Describing Temporal Order Among Events, Robert J. Jarvella and Jay Lubinsky, March, 58-73.
Development of the Voicing Contrast: Perception of Stop Consonants, Marsha A. Zlatin and Roy A. Koenigsknecht, September, 541-553.
Dimensions of Consonant Perception in Normal and Hearing-Impaired Listeners, Brian E. Walden and Allen A. Montgomery, September, 444-455.
Diplacusis Associated with Bilateral High Frequency Loss, Dale O. Robinson and John H. Gaeth, March, 5-16.

The Distribution of Perceptual Cues in English Prevocalic Fricatives, Conrad LaRiviere, Harris Winitz, and Eve Herriman, December, 613-622.
Dynamic Palatometry (Research Note), Samuel G. Fletcher, Martin J. McCutcheon, and Matthew B. Wolf, December, 812-819.
The Effect of Combining Low- and High-Frequency Passbands on Consonant Recognition in the Hearing Impaired, Barbara Franklin, December, 719-727.
Effect of Selected Word Attributes on Preschoolers' Speech Disfluency: Initial Phoneme and Length, Ellen-Marie Silverman, September, 430-434.
Expectancy as Basically a Short-Term Process, M. E. Wingate, March, 31-42.
Fricative Discrimination in Early Infancy, Rebecca Eilers and Fred Minifie, March, 158-167.
Identification and Discrimination of Vowel-Consonant Syllables in Listeners with Sensorineural Hearing Loss, Charlotte Reed, December, 773-794.
Infant Sucking Response Patterns as a Conjugate Function of Changes in the Sound Pressure Level of Auditory Stimuli, W. Alan Eisele, Richard C. Berry, and Thomas H. Shriner, June, 296-307.
The Influence of Noise on Stutterers' Different Disfluency Types, Edward G. Conture and Evelyn R. Brayton, June, 381-384.
Intelligibility Characteristics of Superior Esophageal Speech Presented under Various Levels of Masking Noise, Yoshiyuki Horii and Bernd Weinberg, September, 413-419.
Intraoral Air Pressure as a Feedback Cue in Consonant Production, Robert A. Prosek and Arthur S. House, March 133-147.
Language Performance of Educable Mentally Retarded and Normal Children at Five Age Levels, Rita C. Naremore and Richard B. Dever, March, 82-95.
Lingual-Palatal Pressure Measurement and Analysis Techniques (Research Note), Herbert A. Leeper, Jr., and Franklin J. Appl, September, 588-593.
Lip and Jaw Motor Control during Speech: Responses to Resistive Loading of the Jaw, John W. Folkins and James H. Abbs, March, 207-220.
Localization of Two Noise Sources Overlapping in Time, Willard R. Thurlow and Judith C. Jacques, December, 668-671.
The Measurement of Critical Masking Bands, Robert H. Margolis and Arnold M. Small, September, 571-587.
Measuring In-the-Ear Gain of Hearing Aids by the Acoustic Reflex Method, William Tonisson, March, 17-30.
Memory for Speech and Speech for Memory, John L. Locke and Kathryn J. Kutz, March, 176-191.
A Miniature Accelerometer for Detecting Glottal Waveforms and Nasalization (Research Note), K. N. Stevens, D. N. Kalikow, and T. R. Willemain, September, 594-599.
Most Comfortable Loudness for Pure Tones and Speech in the Presence of Masking Noise, Alan M. Richards, September, 498-505.
Neuropsychologic Function of Children with Severe Hearing Impairment, James J. Wilson, Isabelle Rapin, Barbara C. Wilson, Frances Victor Van Denburg, December, 634-652.
Observer Agreement for Marking Moments of Stuttering, Martin A. Young, September, 530-540.
Occurrence of Children's Echoic Responses According to Interlocutory Question Types, Warren H. Fay, June, 336-345.
Pantomime Recognition in Aphasics, Robert J. Duffy, Joseph R. Duffy, and Karen Leiter Pearson, March, 115-132.
Patterns of Language Behavior in Children with Developmental Language Disorders, Dorothy M. Aram and James E. Nation, June, 229-241.
Perceptual Strategies Employed by Normal-Hearing and Hearing-Impaired Children in the Comprehension of Sentences Containing Relative Clauses, Julia Davis and Richard Blasdell, June, 281-295.
Practicality of Shortening the Porch Index of Communicative Ability, Frank G. DiSimoni, Robert L. Keith, Dennis L. Holt, and Frederic L. Darley, September, 491-497.
Pronoun Assessment: A Free Speech Technique, Barbara Bergmann Davis and Sue Seitz, December, 765-772.
Punishment and Negative Reinforcement of Stuttering using Electric Shock, Richard Martin, Kenneth St. Louis, Samuel Haroldson, and Jon Hasbrouck, September, 478-490.
Pursuit Auditory Tracking of Dichotically Presented Tonal Amplitudes, Harvey M. Sussman, Peter F. MacNeilage, and Jack L. Lumbley, March, 74-81.

A Reconceptualization and Revised Scoring Procedure for the ITPA Based on Multivariate Analysis of the Original Normative Data, Gary Cronkhite and Kandace Penner, September, 506-520.
Reduction of Stuttering Frequency Using Analog Electromyographic Feedback, Barry Guitar, December, 672-685.
The Relationship between Discrimination and Articulation Training in Children with Misarticulations, Gail C. Williams and Leija V. McReynolds, September, 401-412.
The Reliability of Developmental Sentence Scoring as a Function of Sample Size, Martha R. Johnson and J. Bruce Tomblin, June, 372-380.
A Reply to Martin Young (Letter to the Editor), Martin R. Adams and Ronald Reis, September, 603.
Reply to Mendel's and Harker's comments on "Five Years of Experience with Electric Response Audiometry" (Letter to the Editor), Frederica M. Russ and F. Blair Simmons, March, 222.
Residual Hearing and Speech Production in Deaf Children, Clarissa R. Smith, December, 795-811.
Rhythm and Syllable Timing in Phrase-Level Stress Patterning, John W. Folkins, Creighton J. Miller, and Fred D. Minifie, December, 739-753.
Self and Mutual Speech Comprehension by Deviant- and Normal-Speaking Children, John Panagos and Rella Ruth King, December, 653-662.
Self-Retrieval and Articulatory Retention, Harris Winitz and Betty Bellerose, September, 466-477.
Some Masking Effects Produced by Low-Frequency Vowel Formants in Persons with Sensorineural Hearing Loss, Ellen M. Danaher and J. M. Pickett, June, 261-271.
Some Statistical Characteristics of Voice Fundamental Frequency, Yoshiyuki Horii, March, 192-201.
Speech Fluency Fluctuations during the Menstrual Cycle, Ellen-Marie Silverman and Catherine H. Zimmer, March, 202-206.
Static and Dynamic Acoustic Impedance Measurements in Infant Ears, Robert H. Margolis and Gerald R. Popelka, September, 435-443.
Tympanometric Curves and Otosclerosis, Robert G. Ivey, September, 554-558.
Ultrasonic Measurement of Lateral Pharyngeal Wall Motion at Two Levels in the Vocal Tract, James Zagzebski, June, 308-318.
Verbal Coding Strategies Used by Hearing-Impaired Individuals, Robert D. Moulton and Daniel S. Beasley, September, 559-570.
Vertical Laryngeal Position during Continuous and Discrete Vocal Frequency Change, Thomas Shipp, December, 707-718.
Voice Onset Time, Frication, and Aspiration in Word-Initial Consonant Clusters, Dennis H. Klatt, December, 686-706.
Vowel and Nasal Duration as Cues to Voicing in Word-Final Stop Consonants: Spectrographic and Perceptual Studies, Lawrence J. Raphael, M. F. Dorman, Charles Tobin, and Frances Freeman, September, 389-400.
Word Order in Early Two and Three Word Utterances: Does Production Precede Comprehension? Robin S. Chapman and Jon F. Miller, June, 355-371.
